Deeper Level

DEEPER LEVEL

Fai un respiro e libera la mente, curati del passato e pensa al futuro.

Siamo di fronte a una gamma che funziona perfettamente come sfondo per colori più stagionali.

Toni e pattern che creano una forte connessione con ciò che risulta essenziale, che ci portano in profondità suggellando la potenza del passare del tempo e della forza della terra.

Capaci di ricaricarci e di trasmetterci calma, e allo stesso tempo, di essere potenti ma di non prevalere sulla materia.

Classici rielaborati che hanno alla base materie prime arricchite dalla mano dell'uomo, capace di trasferirgli un aspetto lussuoso e materico.

L'uomo appartiene alla natura e il nostro subconscio trova questo livello di tattilità visiva irresistibile.

I prodotti hanno bisogno di dimostrare, per catturare l'interesse dei consumatori, che possono apportare un valore aggiunto in un mercato iper-stimolato, possono restituire più di quanto prendono.

—

La gamma offre toni intensi, profondi, saturi e sofisticati. Marroni, bordeaux, verde petrolio e grigi antracite: insieme trasmettono una sensazione di resilienza e di forza.

DEEPER LEVEL

Take a breath and clear your mind, take care of the past and think about the future.

We are presented with a palette that works perfectly as a backdrop for more seasonal colors.

Tones and patterns that create a strong connection with what is essential, that take us deep into the depths of the world, sealing the power of the passage of time and the strength of the earth.

They recharge us, instill calm, and at the same time remain powerful without overshadowing the material.

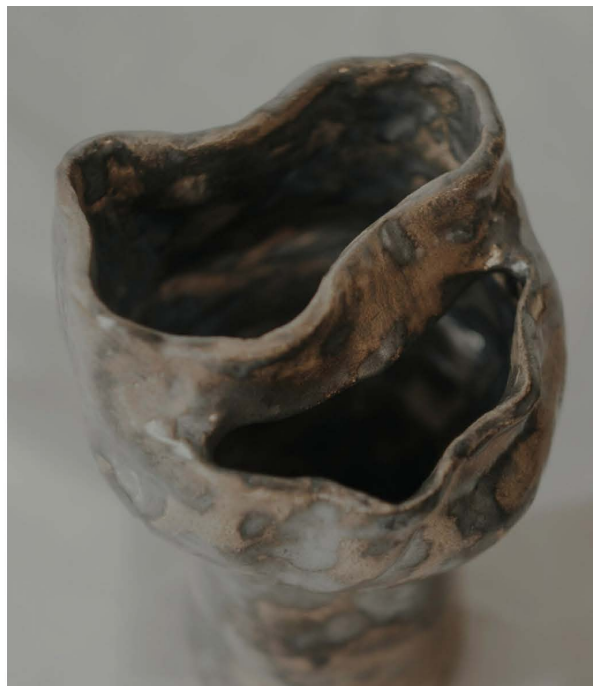

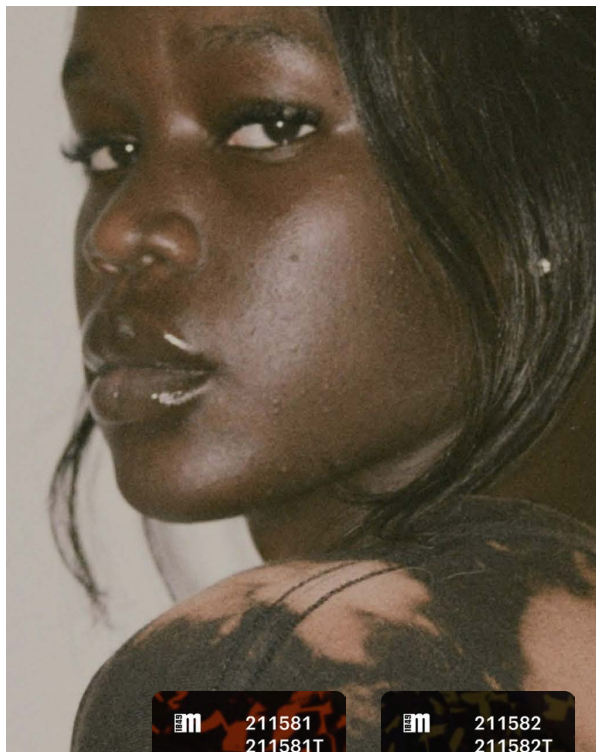

Reworked classics that are based on raw materials enriched by human craftsmanship, capable of transferring a luxurious and tactile look.

Man belongs to nature and our subconscious finds this level of visual tactility irresistible.

To capture consumer interest, products must prove they can offer added value in an overstimulated market; they must give back more than they take.

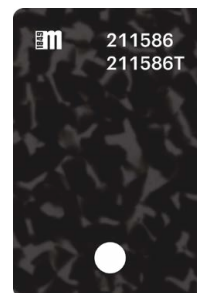

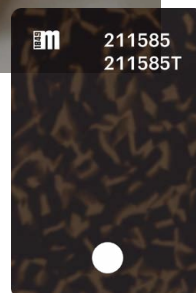

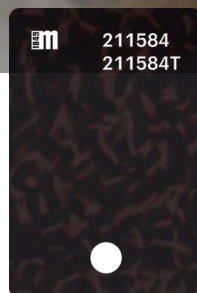

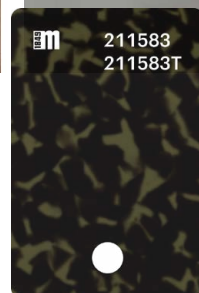

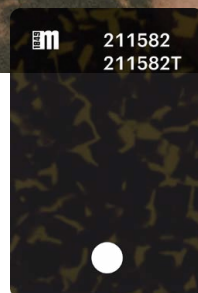

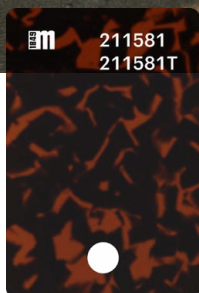

—

The range offers intense, deep, saturated and sophisticated tones. Browns, bordeaux, petrol green and anthracite greys: together they convey a feeling of resilience and strength.

Top avana vengono influenzati da basi trasparenti dai toni empatici.

–
Havana tops are influenced by transparent bases with empathetic tones.

Nostalgic Happiness

NOSTALGIC HAPPINESS

La felicità può essere trovata nei momenti più semplici e colorati e risponde ad un forte desiderio di spensieratezza, gioia e di emozioni ricche di ricordi.

Siamo di fronte a un trend vivo, che concilia aspetti all'apparenza contrastanti: giocoso e riflessivo, nostalgico e contemporaneamente moderno, infantile e al tempo stesso maturo.

È un invito aperto a essere coraggiosi con il colore.

Toni audaci e primari, influenzati dal contesto digitale, con un richiamo a uno stile retro vengono smorzati da nuance neutre e da lavorazioni artigianali.

E sono proprio le storie artigianali di questa stagione ad essere contaminate dalla gioia, dalla creatività e dalla tecnologia.

–

Gialli intensi, aranci vibranti, verdi vitali e rosa accesi colorano questa palette.

NOSTALGIC HAPPINESS

Happiness can be found in the simplest and most colorful moments, fulfilling a deep desire for lightheartedness, joy and emotions full of memories.

We are witnessing a vibrant trend that brings together seemingly contrasting elements: playful and reflective, nostalgic yet modern, childlike and at the same time mature.

It's an open invitation to be brave with color.

Bold and primary tones, influenced by the digital context, with a reference to a retro style are softened by neutral nuances and craftsmanship.

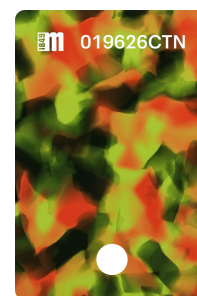

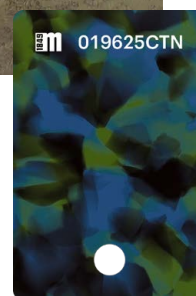

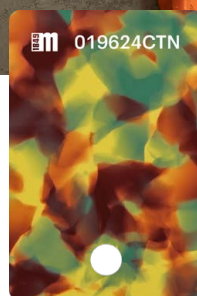

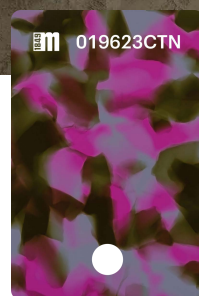

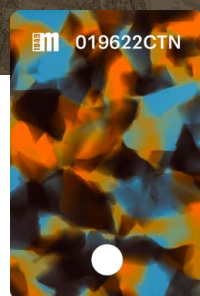

And it is precisely the artisanal stories of this season that are infused with joy, creativity and technology.

–

Intense yellows, vibrant oranges, vital greens and bright pinks color this palette.

Awareness

AWARENESS

I nostri sensi sono fondamentali per la percezione della realtà. Influenziamo costantemente il modo in cui percepiamo il mondo attraverso ciò che vediamo, tocchiamo, gustiamo, udiamo e annusiamo.

Per questo dobbiamo pensare a prodotti e colori che stimolino i nostri sensi e usare questi ultimi in modo creativo e consapevole per approcciare la quotidianità.

Sperimentare un approccio che ci porti a consolidare la connessione tra la persona e l'oggetto, assicurandoci di vivere al meglio l'esperienza che ne scaturisce.

Non dobbiamo dimenticare che la creazione di un prodotto, di un'esperienza, è un processo che vede coinvolto non solo chi vive la fase creativa e la sua intenzione ma anche e direttamente la percezione del destinatario, del consumatore.

–

Questa tendenza si presenta con una gamma armoniosa, che avvolge lo sguardo tra toni make up della pelle che attraverso sfumature di lilla arrivano fino ai blu.

Ma non si ferma qui, presenta anche un altro lato, che vira verso il futuristico, dove i toni si fondono con realtà sfocate di un mondo virtuale espresso attraverso richiami al digitale e sfumature di colore immersive.

AWARENESS

Our senses are fundamental to perceiving reality.

We constantly influence the way we perceive the world through what we see, touch, taste, hear, and smell.

For this reason, we need to think about products and colors that stimulate our senses and use them creatively and consciously to approach daily life.

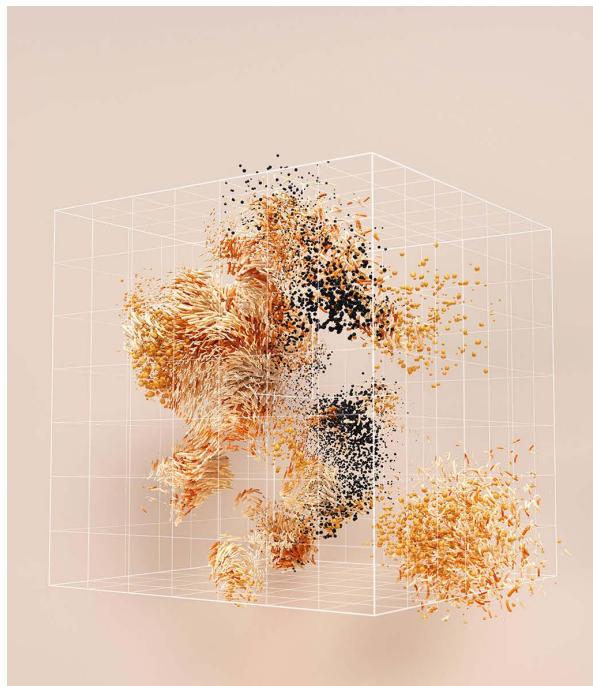

We should experiment with an approach that helps consolidate the connection between people and objects, ensuring we fully enjoy the experience that arises from it.

We must not forget that creating a product or an experience is a process that involves not only those who shape the creative phase and its intention but also, directly, the perception of the recipient, the consumer.

–

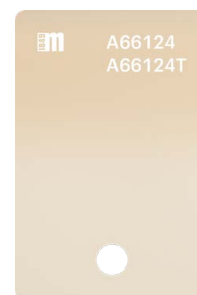

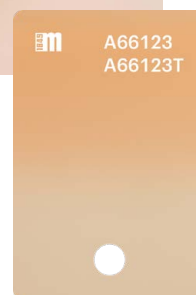

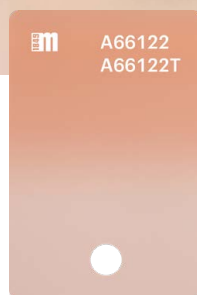

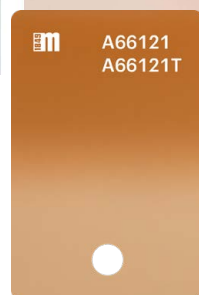

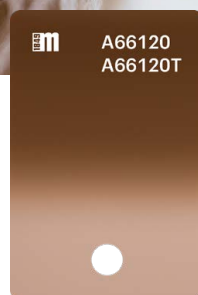

This trend is expressed through a harmonious palette that embraces the gaze with skin-inspired makeup tones, transitioning through shades of lilac to blues.

But it doesn't stop there; it also presents another dimension, leaning toward the futuristic, where tones blend with blurred realities of a virtual world, conveyed through digital references and immersive color gradients.

Una sfumatura di consistenze, colorata richiamando i toni della pelle.

–
A gradient of textures, colored to recall skin tones.
